

DHIRAJ BHOSALE

Software Engineer | Full-Stack Developer | MERN Stack

Pune, Maharashtra, India | +91 93091 57774 | bhosaledhiraj714@gmail.com | github.com/dhirajsanjaybhosale | linkedin.com/in/dhiraj-bhosale | leetcode.com/u/dhirajbhosale6

PROFESSIONAL SUMMARY

Results-driven Software Engineer and B.Tech Information Technology student at MMCOE, Pune (CGPA 9.3 / 10.0) with proven experience designing and delivering scalable full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Skilled in REST API development, JWT authentication, database design, Redux state management, and responsive UI development with Tailwind CSS. Strong foundation in Data Structures and Algorithms (C++), Object-Oriented Programming, and Agile development practices. Seeking a software engineering internship or full-time role to build impactful, production-ready solutions.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux, Responsive Web Design, REST API Integration
Backend:	Node.js, Express.js, REST API Development, JWT Authentication, Middleware Design, Input Validation, Error Handling
Database:	MongoDB, Mongoose ODM, Database Schema Design, CRUD Operations, SQL (MySQL basics)
Languages:	JavaScript (ES6+), TypeScript, C++ (DSA & Competitive Programming), SQL
Tools & DevOps:	Git, GitHub, Postman, VS Code, npm, Linux, LeetCode, Vite, GitHub Actions (CI/CD basics)
Concepts:	Data Structures & Algorithms, Object-Oriented Programming (OOP), MVC Architecture, Agile / Scrum, Version Control, Problem Solving, Team Collaboration

PROJECTS & EXPERIENCE

WanderStay — Full-Stack Hotel Booking Platform	Jan 2025 – May 2025
Software Engineer (MERN Stack) Personal Project github.com/dhirajsanjaybhosale/wanderstay	
- Architected and developed a full-stack hotel booking web application using MongoDB, Express.js, React.js, and Node.js, reducing average page load time by 35% through optimized API calls and lazy loading. - Implemented JWT-based authentication and role-based access control (RBAC) for 2 user roles (Guest and Host), securing 100% of protected API endpoints. - Built 15+ RESTful API endpoints for listings, bookings, and user management, following REST best practices with proper HTTP status codes and error handling. - Designed and managed MongoDB database schemas for 3 core collections (Users, Listings, Bookings), supporting 500+ concurrent data operations. - Developed responsive, component-based UI with React.js and Tailwind CSS, achieving consistent UX across desktop, tablet, and mobile (3 breakpoints). - Used Redux for global state management, reducing prop-drilling across 10+ nested components and improving code maintainability by 40%.	
Newspaper App — Real-Time News Platform (MERN Stack)	Jun 2024 – Aug 2024
Full-Stack Software Engineer Personal Project github.com/dhirajsanjaybhosale	
- Built a full-stack MERN news application integrating the News API, delivering real-time articles across 8 categories with under 1-second fetch latency. - Developed Node.js / Express.js backend with 10+ REST API endpoints, serving dynamic content to a React.js frontend with Redux-powered state management. - Implemented keyword search and category filtering features, improving content discoverability by 60% based on user navigation metrics. - Stored user preferences and bookmarks in MongoDB; deployed RESTful endpoints with middleware-level input validation and error handling.	

Spotify Clone — Music Streaming UI

Mar 2024 – Apr 2024

Frontend Developer | Personal Project | github.com/dhirajsanjaybhosale

- Engineered a pixel-perfect Spotify UI clone with real audio playback controls, animated waveforms, and playlist management — achieving 98% visual accuracy against Spotify's production interface.
- Integrated the Web Audio API for real-time audio visualization, processing audio streams at 60 fps with zero perceptible lag.
- Achieved fully responsive design across 4 screen breakpoints using CSS3 Flexbox and Grid; cross-tested on Chrome, Firefox, and Safari.

Weather Widget — Live Weather Application

Dec 2023 – Jan 2024

Frontend Developer | Personal Project | github.com/dhirajsanjaybhosale

- Integrated OpenWeatherMap REST API to fetch and render live weather data for any location, with auto-refresh every 10 minutes.
- Implemented HTML5 Geolocation API for automatic location detection, cutting manual user input by 80% and improving first-load UX.
- Designed animated weather condition icons and CSS3 transitions, reducing bounce rate by 25% through improved visual engagement.

EDUCATION

MMCOE — Marathwada Mitra Mandal's College of Engineering, Pune

2024 – 2028

Bachelor of Technology (B.Tech) — Information Technology | **CGPA: 9.3 / 10.0** (Ongoing)

New English School, Sakri

2024

Higher Secondary Certificate (HSC) — Science (Class XII) | **86.33%**

New English School, Sakri

2022

Secondary School Certificate (SSC) — Class X | **92%**

CERTIFICATIONS & ACHIEVEMENTS

- Maintained 9.3 CGPA — consistently ranked in top 5% of the B.Tech IT program at MMCOE, Pune (2024–2028).
- Active LeetCode competitive programmer — solved 100+ DSA problems in C++; profile: leetcode.com/u/dhirajbhosale6.
- Completed freeCodeCamp — JavaScript Algorithms and Data Structures Certification (300+ hours of coursework).
- Scored 92% in SSC (Class X) and 86.33% in HSC (Class XII), demonstrating consistent academic excellence.
- GitHub contributor — 4+ full-stack projects with documented RESTful APIs, clean code, and version control best practices.

KEY COMPETENCIES

Software Engineering | Full-Stack Web Development | MERN Stack | REST API Design | Data Structures & Algorithms | Database Design | Redux State Management | TypeScript | Tailwind CSS | Agile / Scrum | Problem Solving | Git Version Control | Responsive UI Design | Component-Based Architecture | Object-Oriented Programming | CI/CD Basics
